Technically advanced Java Developer with 4+ years of experience in designing, developing and delivering user-centric software applications using Java/J2EE technologies. Offering strong expertise in multiple programming languages, including JavaScript, HTML, and Python. Seeking to secure a challenging position as a Java Developer. Experienced in conducting comprehensive security assessments, vulnerability analysis, and penetration tests to identify, exploit, and mitigate potential threats. Proficient in leveraging industry-standard tools and methodologies such as OWASP, Nmap, Metasploit, and Burp Suite to ensure robust security defenses.

PROFESSIONAL EXPERIENCE

MACKSOFY TECHNOLOGIES PVT LTD, Mumbai
Cyber Security Intern
June 2024 – Present

- working closely with experienced security professionals to conduct vulnerability assessments, penetration tests, and assist in the development and implementation of remediation strategies
- Assist in conducting vulnerability assessments and penetration tests.
- Analyze scan results and assist in prioritizing vulnerabilities based on severity.
- Support the development and implementation of remediation strategies.
- Collaborate with team members to enhance security posture and mitigate risks.
- Document findings and contribute to the preparation of comprehensive reports.

BRIZTECH INFO SYSTEM., Ranchi, JH
Junior Java Developer Intern
June 2023 - August 2023

- Collaborated with a team of developers to design, develop, and implement Java-based applications.
- Assisted in the development of an internal tool that reduced processing time by 20%.
- Participated in code reviews and provided constructive feedback to peers.
- Utilized version control systems (Git) to manage codebase changes and ensure project continuity.
- Debugged and resolved application issues reported by QA team.

Java Developer Trainee Online Course Project, Self-directed
February 2023 - May 2023

- Completed a comprehensive Java development course covering core Java concepts, object-oriented programming, and data structures.

- Developed a personal project, a library management system, using Java and MySQL, demonstrating the ability to handle CRUD operations and database integration.
- Implemented various algorithms and data structures to optimize the application's performance.
- Used Java Swing to create a user-friendly graphical user interface (GUI) for the application.
- Gained experience with unit testing and debugging to ensure code reliability and performance.

EDUCATION

Aliah University
Bachelor of Technology in Computer Science
Jharkhand University of Technology
Diploma in Computer Science & Engineering,2021-2024

ADDITIONAL SKILLS

- Languages: Java, JavaScript, Java Beans, JSP, SQL, HTML, XML, Node.js, Bootstrap
- Frameworks: JSF, J2EE, Apache Struts
- API's: Servlets, EJB, Java Naming and Directory Interface (JNDI)
- Software: Eclipse, Toad, Works, NetBeans
- Databases: IBM DB2, Oracle, MySQL, Database SQL command
